INDUSTRIAL RENOVATION / REPOSITIONING

With industrial vacancy rates at a historical low, real estate professionals and occupiers are forced to expand their search for suitable industrial workspaces.

In this scenario, our client found a building that met many of their key operational goals, such as location and building amenities but fell way short on corporate image and the type of environment they wanted for their staff.

THE SOLUTION – REPOSITIONING AN OLDER ASSET TO SUIT OUR CLIENT’S NEEDS
